Rachele Bizzarri

web developer

/* PROFESSIONAL EXPERIENCES */

MONOGRID | Web Developer

FEBRUARY 2022 - ATM | Firenze

A proactive contributor to web development projects, with experience spanning customer-facing and back-office services. As part of a development team, actively researched and implemented innovative technologies and solutions for web development. Collaborated in an international setting with leading global clients, delivering solutions that integrate cutting-edge technologies and experimental designs.

Cloud4Wi | Web Developer

JULY 2019 - FEBRUARY 2022 | Pisa

Contributor to the development of the company's website, with ownership in maintaining and updating various customer-facing interfaces and services. Responsibilities include UI design, contributing to the upkeep and enhancement of data pipelines to deliver insights to customers, as well as data visualization and information design.

GeoMind | Web Developer (intern)

SEPTEMBER 2018 - JULY 2019 | Lucca / Pisa

Development of a web application for the regional project TurfUp - "Remote monitoring and management of turfgrass". This includes training in C++ for creating libraries for Android applications.

Cloud4wi | Web Developer (intern)

MARCH 2018 - MAY 2018 | Pisa

Development of a graphical library based on d3.js and its integration within the company's product.
