

Rachele Bizzarri

SENIOR FRONT-END ENGINEER

✉ rachebizz@gmail.com 🔗 linkedin.com/in/rhlbzz 🌐 rhlbzz.com <> github.com/rhlbzz

React/Vue/TypeScript developer with 7+ years of experience building performant, accessible interfaces, with a Digital Humanities lens on UX and content.

WORK EXPERIENCE

Senior Front-end Developer @ HexErgy

Jan 2026 – Present · Guglionesi (CB), IT · Remote

- Own maintenance and ongoing improvement of customer-facing interfaces on the company's platform.
- Advocated for a feature-based reorganization of the component structure and implemented the migration to Data Routers, driving adoption of this standard across the project.
- Modernize coding practices and refactor UI components to improve performance and maintainability, including a dynamic SVG icon system with auto-discovery and lazy-loading.
- Use AI tools for code review and pair programming, accelerating development cycles.
- Contribute to CI/CD pipeline configuration and manage the local development environment with Docker.

Web Developer @ MONOGRID

Feb 2022 – Jan 2026 · Firenze, IT · Remote

- Built web interfaces for both end users and back-office, across projects for high-profile international clients.
- Developed an interactive video experience with Google MediaPipe for real-time facial expression detection, and WebAR experiences with 8th Wall.
- Integrated AI-assisted workflows for code review and rapid prototyping, shortening release timelines.
- Contributed to securing third-party integrations and supporting internal reporting needs.

Front-end Developer @ Cloud4Wi

Jul 2019 – Feb 2022 · Pisa, IT · On-site

- Contributed to platform development, handling maintenance and updates of customer-facing interfaces and services.
- Focused on UI design and contributed to managing data pipelines for data visualization.
- Contributed to database design and server-side data handling.

Front-end Developer @ GeoMind · intern

Sep 2018 – Jul 2019 · Pisa/Lucca, IT

- Developed and maintained a web application.

Front-end Developer @ Cloud4Wi · intern

Mar – May 2018 · Pisa, IT

- Developed and integrated a custom d3.js data visualization library into the customer-facing platform.

TECH STACK

FE ARCHITECTURE & CORE

React Vue3 TypeScript Context API
REST API JavaScript HTML5 CSS3
