Cursor · Claude Code · Copilot · VS Code

WORK EXPERIENCES

Senior Front-end developer @ HexErgy

JANUARY 2026 - PRESENT | Guglionesi (CB), Italy [remote]

Contribute to the evolution of the company's platform, taking ownership of the maintenance and ongoing improvement of customer-facing interfaces. Renewed code-writing methodologies and refactored UI components to improve platform performance and maintainability. Leveraged AI-assisted tools for code review and pair-programming, accelerating development cycles while preserving code quality and consistency.

Web developer @ MONOGRID

FEBRUARY 2022 - JANUARY 2026 | Firenze, Italy [remote]

Active contribution to web development projects for both customer-facing and back-office interfaces. Collaborating in teams to develop innovative solutions for delivering tailor-made web experiences for high-profile international clients. Integrated AI-assisted workflows into the development process for code review and rapid prototyping, boosting delivery speed without compromising code quality.

Front-end developer @ Cloud4Wi

JULY 2019 - FEBRUARY 2022 | Pisa, Italy [in-office]

Contributed to the development of the company's platform, with direct ownership of maintaining and updating customer-facing interfaces and services. Worked on UI design and maintained data pipelines for data visualization, delivering useful insights to customers.

Front-end developer @ GeoMind [intern]

SEPTEMBER 2018 - JULY 2019 | Pisa/Lucca, Italy [in-office]

Development of a web application and training in C++ for building Android application libraries.

Front-end developer @ Cloud4Wi [intern]

MARCH 2018 - MAY 2018 | Pisa, Italy [in-office]

Developed and integrated a custom d3.js data visualization library into the core product

SOFT SKILLS

Pragmatic Problem-Solving
Cross-Functional Collaboration
User-Centric Advocacy
Structured Organization

EDUCATION

Master's Degree in Digital Humanities | 110/110 with honors

Università di Pisa - OCTOBER 2016 - OCTOBER 2019

Thesis: *ScrollAStory.js: A Library for Creating Scrollytelling Web Pages* — development of a class-based JavaScript library for creating scrollytelling products and implementation of a web-based editor.

Bachelor's Degree in Digital Humanities | 110/110

Università di Pisa - SEPTEMBER 2013 - OCTOBER 2016

Thesis: *The Epigraphs of La Spezia and WPDB_Interface: Cataloging the Epigraphs of the La Spezia Area* — development of a WordPress plugin for cataloging epigraphs.
